6. CUSTOMER CONSTRAINTS 5. AVAILABLE SOLUTIONS 1.CUSTOMER SEGMENT What constraints prevent your customers from taking action or Which solutions are available to the customers when they face the Who is your customer? problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e., pen and paper limit their choices working parents who are not able to safe their child of solutions? i.e., spending power, budget, no cash, network (0-5) willing to use these. The most important reason for monitoring each child's development is connection, available devices. to determine whether a child's is on track. Looking for developmental For predictive analytics to make the most impact on child milestones is important to understanding each child's development protection practice and outcomes, it must embrace established and behaviour. criteria of validity, equity, reliability, and usefulness. 9. PROBLEM ROOT CAUSE 2. JOBS-TO-BE-DONE / PROBLEMS 7. BEHAVIOUR What is the real reason that this problem exists? What is the back What does your customer do to address the problem and get the job Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different The parents can monitor their child from their workplace when It's exactly what it sounds like—an exercise to determine the root sides. children have frequent emotional outbursts, it can be a sign that they cause for a failure or issue, so that the solution is based on the true haven't yet developed the skills they need to cope with feelings like Parents can't able to save their child from their workplace and frustration, anxiety and anger. Handling big emotions in a healthy, problem, not just addressing the symptoms. Over parenting tends to deprive children of bad and negative mature way requires a variety of skills, including. experiences, which are crucial to a child's emotional growth. One form of overparenting is excessive monitoring. 3. TRIGGERS **10. YOUR SOLUTION** 8. CHANNELS of BEHAVIOUR What triggers customers to act? If you are working on an existing business, write down your ONLINE i.e., seeing their neighbour installing solar panels, reading about current solution first, fill in the canvas, and check how much it What kind of actions do customers take online? Extract online a more efficient solution in the news. fits reality. channels from #7 If you are working on a new business proposition, then keep it OFFLINE It's not the situation or the feeling that's the problem; it's how blank until you fill in the canvas and come up with a solution What kind of actions do customers take offline? Extract offline kids think about these things and what they say to themselves that fits within customer limitations, solves a problem and channels from #7 and use them for customer development. that causes problems and child (0-2) years didn't know about matches customer behaviour. Understanding how children perceive and interact with the point of anything this will trigger. The most important reason for monitoring each child's sale has been the focus of various studies in the past decade. It is well

activities is to determine whether a child's activities is on

track. Using ultrasonic sensor sense something near child and activate pieze buzz and SMS and dialing function to

parents will be done immediately.

documented that children have preferences in terms of shopping

destinations . For working parents necessarily needed one.

4. EMOTIONS: BEFORE / AFTER

How do customers feel when they face a problem or a job and afterwards?

i.e., lost, insecure > confident, in control - use it in your communication strategy & design.

BEFORE: Divergent thinking is a style of thinking that generates a range of alternative solutions or ideas to a problem that has multiple answers.

AFTER: Feeling protective of your child is often manifested in the form of 'motherly' instincts. The feeling of protecting and wanting the best for your children is the ultimate parenting goal.
